Intro – Wireless Hearing Products

Your journey to better hearing begins with Intro

If you've been experiencing hearing loss, but have put off getting help because of misperceptions about hearing aids or because of budget concerns, now is a good time to learn about Intro Wireless.

Intro Wireless is NuEar's full line of value-priced hearing aids that sound great and perform dependably in a variety of normal listening situations. Designed by NuEar, one of the hearing industry's technology leaders, all Intro Wireless hearing aids are designed to deliver superior:

Feedback Cancellation – greatly reduces annoying buzzing and whistling caused by things like talking on the phone or being hugged.

Noise Management – automatically recognizes and reduces noise for more comfortable listening in loud environments.

Directional Settings – designed to help you understand the speech in front of you while filtering out unwanted background noise.

Hear all that life has to offer

Combined with our innovative SurfLink® accessories, Intro Wireless hearing aids can also make it easier to enjoy TV, music, cell phone conversations and more — no wires attached!

SurfLink Media

This set-and-forget media streaming solution connects to TVs, MP3 players and more to wirelessly stream audio directly to your Intro Wireless hearing aids, so you can hear the volume at the level you want, while everyone else in the room can listen at the volume they want.

SurfLink Remote

This handy remote lets you adjust and control your Intro Wireless hearing aids with the push of a button.

SurfLink Mobile

Enjoy hands-free phone conversations with this one-of-a-kind device. That's because SurfLink Mobile turns your Intro Wireless hearing aids into both your cell phone microphone and receiver:

- Microphone — Your hearing aids can pick up your voice and send it to the person you're talking to
- Receiver — SurfLink Mobile streams the voice on the other end of the phone directly to both of your hearing aids

But that's just the beginning. SurfLink Mobile is not only a cell phone transmitter, it's also an assisted listening device, media streamer, and hearing aid remote all rolled into one.
